Global Risks Landscape

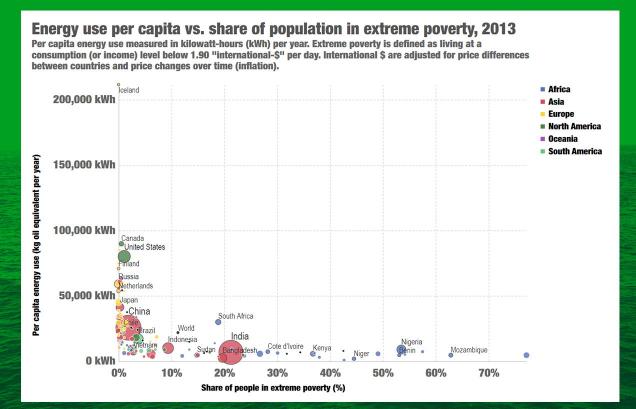

ENERGY GAP

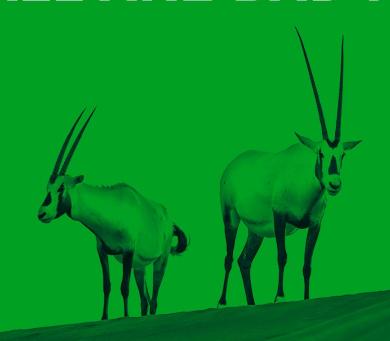

1 OUT OF EVERY 7 PEOPLE IN THE WORLD DOES NOT HAVE ELECTRICITY

1.3 BILLIONS

INTEGRATING THESE PEOPLE INTO THE ELECTRICITY GRID IN A FRIENDLY WAY WITH THE ENVIRONMENT WOULD ALSO BOOST THEIR ECONOMIES, GIVE THEM ACCESS TO THE INTERNET AND IN THIS WAY GLOBAL ACCESS TO EDUCATION, CULTURE, BETTER JOBS, BETTER OPPORTUNITIES ...

BUT NOT ALL ARE BAD NEWS...

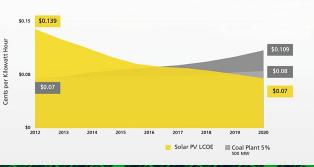

ON THE HORIZON WE CAN SEE A HISTORIC OPPORTUNITY
TO CLOSE THAT GAP IN AN ECOLOGICALLY RESPONSIBLE WAY

SOLAR VS. GAS

SOLAR VS. NUCLEAR

CAN WE TOGETHER CLOSE THIS GAP BY TAKING ADVANTAGE OF THIS GLOBAL CONTEXT?

WE MADE IMPORTANT ADDITIONS AND MODIFICATIONS TO THE TRADITIONAL MODEL OF A BLOCKCHAIN

PROOF OF INTEGRITY [Pol] (source code)

PROOF OF VERACITY [PoV] (minning pools)

PROOF OF VERACITY [PoV] (CO2 tracking data)

ADDITIONALLY WE ARE GOING TO DEVELOP A SET OF DECENTRALIZED APPLICATIONS (DAPPS)

DECENTRALIZED CROWDFUNDING

DECENTRALIZED AUTONOMOUS ORGANISATION

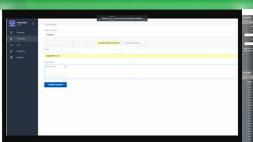

DECENTRALIZED EXCHANGE (DEX)

DECENTRALIZED MARKETPLACE

BUSINESS MODEL FEATURES

- Acceptance of the main cryptocurrencies
- **©** Crowdfunding fees & charges
- Fees & charges of the marketplace
- fees & charges of the generated tokens
- fees & charges of exchange trades

GOAL: Get USD \$ 1.- for each person who joins the grid.

CO₂IN: A system of positive incentives to achieve the immediate implementation of the Paris Agreement.

Abstract. A system of positive economic incentives purely based on cryptocurrencies will allow the international community to raise the financial flows agreed in the Paris Agreement. These flows will serve to stimulate green initiatives around the world for compliance and immediate implementation of the agreement, and thus avoid trying to achieve it by other means having to take measures harmful to the economies of the signatory countries such as new taxes, regulations
